

SONGS OF LOVE EVENT SPONSOR SHEET

The Songs of Love Foundation is a nonprofit organization devoted to writing and recording personalized songs for children and teens, who are either chronically or terminally ill. Each patient receives a compact disc of their own song, free of charge, with original melody and lyrics based on profiles submitted to us by hospitals and families.

Every "song of love" is one of a kind and is never duplicated! This is the only organization in the country performing this important and innovative work.
